

STARING 1000 L - 2000 L

>> Remember Staring mixer is well known
for their good quality and long life

Staring 1000 L - 2000 L

Staring forced-flow mixer is large and in most cases stationary. They can be used to mix a lot of different products in a lot of different professions. Fx in a business where you need the mixer to made in a stainless finish.

The mixing blades are fitted on af special shaped mixing head which is loosly seated on the main shaft. This have the effect of reduced wear and simplifies the cleaning because the mixing head can be removed from the pan without any use of tools.

The mixing pan is loosly fitted on a framework. That means you are able to change the pan when it is worn out. You can dismantle it by lifting the loosly fitted mixing head, and loosen the 3 external bolts. Then you can lift the pan up and change it. The mixer can be delivered with replaceable wear plates - by prior agreement and quotation.

The mixing head and the cover is fitted with hoisting eyes. The mixing pan is fitted with a handle.

The frameworks can be made transportabel by attaching thick pneumatic wheels.

The mixers can also be delivered with hydraulic/pneumatic discharge hatches and covers wtih up to 4 feeding hatches.

The Mixer includes:

- Safety cover
- Safety lattice w/discharge
- The mixer is fitted with a star-delta switch and motor protection
- Wear plates
- Hydraulic opening

Ekstra equipment:

- Riser pipe scraper
- Outer scraper

Recommended for

Concrete
Mortar
Leca
Dry Mixtures
Special cement w/ low moisture content
Food industry
Chemical industry
